

Apple Creative Professional: Music Logic Pro

SPRING 2012

UNM Continuing Education is the only Apple Authorized Training Center in New Mexico. We offer Apple Training for certification in Final Cut Pro and Logic Pro, Apple's premiere video editing and music production software. We administer exams for all Apple Certifications, including all Creative Professional Applications, iLife and iWork, and Mac OS X exams.

Differentiate yourself to employers and prospective clients as an Apple Certified Pro, and gain a competitive edge in the ever-changing job market. Apple certification programs create a benchmark for assessing users' proficiency in Apple's professional applications.

Level One certification attests to basic operational knowledge of the application. Level Two demonstrates knowledge of advanced features and a deeper understanding of the application.

Half-time to full-time students should be able to complete one certification in two semesters or fewer. A schedule of 12 or more classes in a semester is full-time. Six classes is half-time.
